Press Release – 21st Century Thinking

Monday, 22nd September 2003

All companies need a motto, or a mission statement; ours is simple.

21st Century Thinking. We believe it encompasses our goals, and our remit to all of our customers. These are:

1. To build on existing relationships with our customers, clients and associates while being mindful of the present and future in all things, both in the way we conduct ourselves individually as representatives of the company as a whole.
2. To work in harmony with our planet, maintaining a carbon neutral footprint, and redressing any transgressions with positive and long lasting beneficial actions that are both environmentally sound and sustainable.
3. Our purpose remains constant: to be innovative, flexible and dependable to all who work for, with and alongside us in all things.

To celebrate, we have commissioned a promotional pen which we have sent out to existing clients and friends of the company. We look forward to giving yours to you in due course.

For all enquiries, please feel free to contact us on 02392 476283, or e-mail us: starjammer@zoom.co.uk.

We look forward to working with you shortly and helping you shape and develop your projects to a successful conclusion.

Steven Parham
Managing Director
Starjammer Engineering Ltd
